

Asset Naming Standards

Consistent and well-structured asset naming is essential for maintaining an organized and efficient digital environment. This document outlines the naming conventions to be followed for various types of assets used on our website. Adhering to these standards will make it easier for team members to identify, access, and manage assets.

General Guidelines

- **Descriptive names:** Use names that accurately describe the content or purpose of the asset.
- **Lowercase:** Always use lowercase letters for filenames to ensure consistency.
- **No special characters:** Avoid special characters and spaces in filenames. Use underscores (_) or hyphens (-) for word separation.
- **Version control:** If multiple versions of an asset exist, indicate the version in the filename.
- **Extension:** Include the appropriate file extension to indicate the file type.

Image Files

- **Format:** `image_descriptive_name.extension`
 - Example: `profile_photo.jpg`
- **Format (with resolution):** `image_responsive_name_widthxheight.extension`
 - Example: `banner_1920x1080.jpg`

Video Files

- **Format:** `video_descriptive_name.extension`
 - Example: `product_demo.mp4`
- **Format (with resolution):** `name_video_resolution.extension`
 - Example: `tutorial_1080p.mp4`

Documents

- **Format:** `document_name.extension`
 - Example: `user_manual.pdf`
- **Format (with type):** `document_type_name.extension`
 - Example: `annual_report_2023.pdf`

Audio Files

- **Format:** `audio_descriptive_name.extension`

- Example: `podcast_episode.mp3`
- **Format (with version):** `audio_descriptive_name_version.extension`
 - Example: `jingle_v1.mp3`

Icons

- **Format:** `icon_descriptive_name.extension`
 - Example: `search_icon.png`
- **Format (with size):** `name_icon_size.extension`
 - Example: `cart_16x16.png`

CSS and Stylesheets

- **Format:** `style_descriptive_name.extension`
 - Example: `main_style.css`
- **Format (with version):** `style_descriptive_name_version.extension`
 - Example: `reset_v1.css`

JavaScript Files

- **Format:** `script_descriptive_name.extension`
 - Example: `utility_functions.js`
- **Format (with version):** `script_descriptive_name_version.extension`
 - Example: `form_validation_v3.js`

Fonts

- **Format:** `font_family_name.extension`
 - Example: `open_sans.ttf`
- **Format (with variant):** `font_variant_name.extension`
 - Example: `bold_italic.otf`

Other Assets

- **Format:** `asset_descriptive_name.extension`
 - Example: `favicon.ico`
- **Format (with version):** `asset_descriptive_name_version.extension`
 - Example: `custom404_v2.html`

 Consistently following these asset naming standards will lead to a more organized and efficient workflow, making it easier for team members to find and work with assets. Please

ensure that all team members are aware of and adhere to these guidelines when managing assets on our website.
